

IBS America develops integrated compliance management solutions to help companies improve corporate governance and achieve sustained adherence to regulations and standards. Since 1982, we have delivered our systems and services to thousands of companies worldwide. IBS America is one of the very few compliance software companies certified to ISO 9001.

WEB-BASED COMPLIANCE MANAGEMENT SOFTWARE

Environmental Management

Create the complete environmental management system using CompliantPro. Address the requirements of ISO 14001, 18001, RC14001, and ANSI/AIHA Z10-2005 and achieve your own related compliance

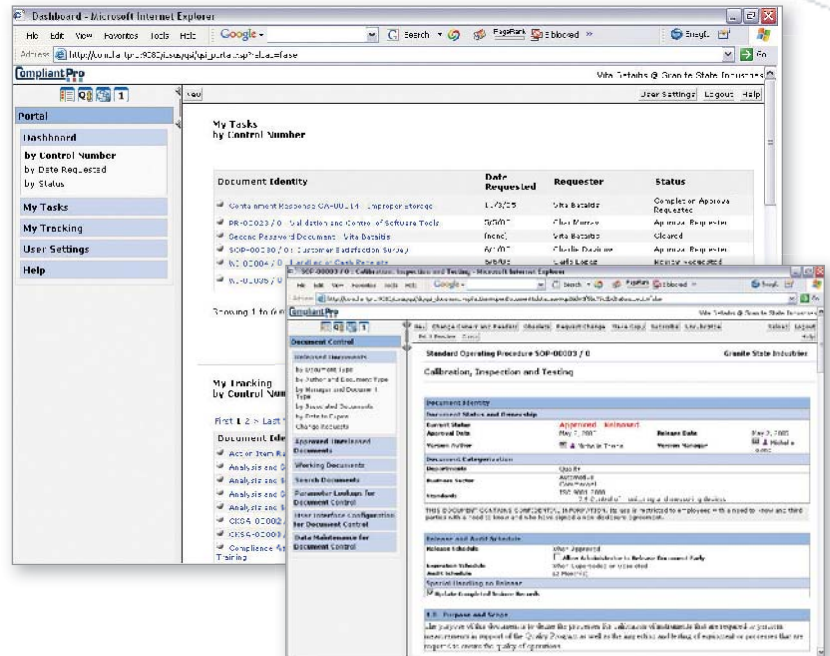

management goals. Track and correct environmental incidents, sharpen emergency preparedness and response, and effectively manage your environmental records. Centralize all your compliance activities, fostering a “Culture of Compliance.” The results are a safer workplace, better employee morale, higher customer satisfaction, and lower compliance costs.

Benefits

- **Enterprise-wide System:** Stop treating environmental issues as they spring up and start revolutionizing your EH&S system at its core. CompliantPro fosters a holistic approach to compliance so you can go beyond troubleshooting and instead, comprehensively manage these matters. You’ll keep more comprehensive records, eliminate inconsistent efforts, and promote a higher standard of safety and employee performance. The system integrates tightly with CompliantPro’s Document Control, Employee Training, and other modules, leveraging their unique benefits.
- **Corrective Actions and Audits:** Turn requests into actions with the product’s integrated CAPA capabilities. CompliantPro facilitates environmental issue prevention and correction. Use company-wide CAPA forms for fast re-routing and tracking. Develop custom formats to satisfy all your needs and customer requirements. Advanced security and escalation features help you maintain system integrity. Schedule, create and execute Internal Assessments and Supplier Assessments online.
- **Environmental Management Records:** Access all the records you need to ensure your EMS is working properly, from Customer Complaints to Environmental Monitoring to Calibration and Preventative Maintenance records. Quickly generate MSDs and HAZMAT data, CARs, NCMRs, SCARs, RMAs, Maintenance Requests, Document Change Requests and General Change Requests from your web browser.
- **Improved Efficiency:** Save yourself time and effort with our sleeker, more streamlined compliance process. Our personalized dashboard provides real-time tracking of key process indicators. Use CompliantPro to track licenses and permits and notify appropriate personnel when renewals are pending. Escalate overdue permits to those who need to know.

Features

- Health and Safety Management:** Record and assess occupational hazards using purpose-built forms to control Fire, Noise, PPE, etc., throughout the enterprise. Manage and document risk assessments, operational controls, and mitigation actions. Record legal requirements. Take advantage of our complete system for logging accidents, incidents, and follow-up activities.

- Environmental Management:** Identify and analyze environmental issues. Weighting factors are available for determining high, medium, and low priorities. Impacts are automatically linked to objectives and targets for planning and tracking environmental programs. The system provides two equally compliant methods for managing aspects and impacts.
- Accessibility:** We offer a comprehensive environmental management solution, and all you need is a web browser. CompliantPro users are not bound by location, so you can log in wherever there is an Internet connection. CompliantPro can be run on industry-standard relational databases, email systems, web application servers, directory services and portals. Your IT department will appreciate that.
- Employee Training and Awareness:** Educate your employees about your company's policies and procedures. Foster a more responsible, conscientious workplace, and ensure that each employee has job-specific knowledge. Implement whistle-blower strategies to ensure your company adheres to the letter of the law. Perform comprehensive monitoring of training and qualifications necessary for EH&S. An integrated, automated notification system that helps keep employees and managers up-to-date.
- Management Reviews:** Create and track meeting agendas, minutes and action items for management reviews, design reviews, material reviews, and contract reviews.
